life timeline

PREMIER REGARD

The first piece of art I ever made was a recording of my parents fighting. I was 2 years old and I pushed record on a Fisher Price toy by accident. That was their last fight .
Most of the best things in my life Happened by accident .

ON A WHIM

Definition : Based on a sudden, impulsive urge, desire, or idea, without careful planning or because of
a capricious inclination.
"On a whim, we drove to the beach for the weekend."

WHAT'S THE STORY

I started photography 20 years ago and I never stopped to shoot, with all types of cameras but since a few years only with my iphone.

THEN AND NOW

Looking for a wizard/agent to make magic with.
